

ONLINE PBIS TRAINING

Support PBIS understanding and sustainability by providing all teachers access to rich PBIS content

WHAT IS EDUFRESH?

EduFresh is an online, asynchronous PBIS course designed to help teachers (K-6) understand challenging behavior and learn how to best support the students in their classroom. EduFresh's online PBIS course can supplement current PBIS or behavioral trainings by:

- Allowing EVERY teacher the opportunity to learn about PBIS (regardless of when they joined your district)
- Providing another touchpoint for teachers to familiarize themselves with PBIS principles
- Promoting reputable approaches to help increase positive behavior
- Creating a place where educators can communicate and share successes

EDUFRESH IN ACTION

Devin Healey
Tiered Supports
Coordinator

"We have really appreciated the EduFresh courses. We have provided them to schools to frontload them with information before providing follow-up training and coaching support. This allows us to hit the ground running in training and support. EduFresh has been supportive and responsive to our requests and needs and they are great to work with."

ABOUT THE AUTHORS OF EDUFRESH PBIS

Dr. Fischer (PhD, BCBA-D) and Dr. Hawken (PhD, BCBA-D) have decades of experience working with individuals and families with social-emotional and behavioral challenges. They developed this content while at the University of Utah.
