

# COURSE SYLLABUS

BEST/VTMTSS Summer Institute, 2020

---

## EDSP 295 Z2 (CRN: 61293) – SUMMER COURSE

*\*Meeting times and independent course work to equal 45 hours for **3 credits***

**Instructor:** Winnie Looby, PhD  
([wlooby@uvm.edu](mailto:wlooby@uvm.edu))

**ONLINE**

Institute: June **22** – June **25**

Coursework: June **29** – August **7**

---

CENTER ON DISABILITY &  
COMMUNITY INCLUSION

THE UNIVERSITY OF VERMONT  
EDUCATION AND  
SOCIAL SERVICES

### **Course Description:**

Everyone taking this course must register for the 2020 BEST/VTmtss Summer Institute. The BEST/VTmtss Summer Institute will have teams of educators sharing and learning strategies for improving positive strategies and supports for students in their classrooms, schools, and communities. In particular, this course will expose students to the components necessary to implement a successful multi-tiered system of supports framework within their selected academic or social context area. Students will focus on developing and understanding the data, systems, and practices needed to maintain and sustain their research projects and action plans. Coursework and assignments start at the Summer Institute and continue through the summer 2020.

### **Goals:** Students will...

- 1.** Register for and attend the BEST/VTmtss Summer Institute online in June.
- 2.** Meet with your school team each day to develop school action plan.
- 3.** Attend all related Institute activities.
- 4.** Write a personal reflection on the Strand you attended.
- 5.** Choose a topic for research and action planning.
- 6.** Read and review a book(s) of your choice, related to your Research Topic and/or Institute Strand.
- 7.** Conduct research that will inform an action plan.
- 8.** Share research findings with peers using Blackboard.
- 9.** Present final research findings via webinar and write Action Plan for implementation back at your school.

## **Learning Outcomes:** Students will...

- Gain knowledge about using positive methods for meeting the needs of students with or at risk of emotional and behavioral challenges.
- Gain knowledge of the multi-tiered system of supports framework and apply this knowledge to individual research projects.
- Develop and improve competencies working with youth with or at risk of emotional and behavioral challenges and all students.
- Gain knowledge and skills specific to their research topic of choice.
- Apply knowledge and skills outlined in Action Plan during the 2020-2021 school year.

## **Course Policies/Expectations:**

### **Respect and Dignity of All Persons**

People with disabilities (especially those with severe and multiple disabilities) have historically been subjected to segregation and discrimination in virtually all aspects of community life (e.g., education, housing, work, recreation). Like many other minoritized groups of people, many stereotypes and unwarranted assumptions exist about individuals with disabilities that are reflected in terminology and other language that often serves to perpetuate these unhelpful stereotypes and limit opportunities for these individuals. Our use of language is a powerful mitigating factor as we interpret our experiences and perceptions. Therefore, students are expected to be especially mindful that all class interactions and homework assignments reflect respectful and dignified language when referring to people with disabilities. In part, this means using "people first" language (see listed websites) and avoiding antiquated terminology.

<https://www.nami.org/stigmafree#whatisstigmafree>

<http://www.disabilityisnatural.com/people-first-language.html>

## Confidentiality

Many members of the class are practicing professionals and/or otherwise are personally acquainted with people who have disabilities, their families, and service providers. Undoubtedly, in the course of practicum projects, assignments, or other class communication, students will share their personal experiences related to class content. Therefore, it is vital that all such communications respect the confidentiality of those individuals with disabilities, their families, and service providers. This means that in sharing with the instructor or class members, do not use the names of individuals or other identifying information. If such identifying information is inadvertently disclosed, you are obliged to keep that information confidential.

## Homework Assignments

Spelling, grammar, and professional presentation matter! Remember to put your name and date on all homework submissions. All assignments must be computer generated (please, no handwritten submissions). Unless otherwise noted in the directions for a specific assignment, all written work should be double-spaced in an easily-readable, 12-point font (e.g., Times, Palatino, Helvetica).

All class assignments are to be received by the instructor no later than the date an assignment is due (as noted later in this syllabus). Late work will be accepted only at the discretion of the instructor and points may be deducted.

## Faculty Expectations

The instructor will respond to your email/phone messages within 48 hours. The instructor will use announcements in Blackboard and email to communicate information that everyone should be aware of.

## Attendance Expectations

Students must attend the following:

- The BEST/VTmtss Summer Institute in June (*the strands and workshops registered for*)
- All scheduled online meetings, and webinars.

## **Religious Observance**

The official policy for excused absences for religious holidays: Students have the right to practice the religion of their choice. Each semester, students should submit in writing to their instructors by the end of the second full week of classes their documented religious holiday schedule for the semester. Faculty must permit students who miss work for the purpose of religious observance to make up this work. Since this is only a 6-week course, the instructor is requesting that any religious observations be communicated to the instructor by July 6th.

## **Contributions in Class**

Students are expected to actively participate in their trainings/strands/workshops, and other Institute-related events. In particular, students must attend the Summer Institute and participate actively each day in the school team's action plan development.

For the online activities that occur after the Summer Institute, students are expected to take an active role in all contributions related to the course. Please observe appropriate netiquette (network etiquette), which refers to proper behavior while interacting online. Please treat people as you would want to be treated. Be polite and considerate. Think about whether your comment could cause hurt feelings. Be careful about how your words can come across because misunderstandings can be common online. Feel free to use emoticons to show your tone. 😊

## **Academic Honesty and Professionalism**

All students are required to be familiar with and adhere to the "Academic Honesty Policy Procedures" delineated in the following website:

<http://www.uvm.edu/~uvmppg/ppg/student/acadintegrity.pdf>.

## Technical Help

If you need immediate assistance with Blackboard during this course you can click on the "Student Help" tab at the very top of the Blackboard course page. That will provide you with numerous ways to get help. Please feel free to also contact the instructor with any questions or assistance you may need.

## Accommodations

In keeping with University policy, any student with a documented disability interested in utilizing accommodations should contact SAS, the office of Disability Services on campus. SAS works with students and faculty in an interactive process to explore reasonable and appropriate accommodations, which are communicated to faculty in an accommodation letter. All students are strongly encouraged to meet with their faculty to discuss the accommodations they plan to use in each course. Please click on this link, [Accommodation Guidelines](https://www.uvm.edu/academicsuccess/student_accessibility_services?Page=accommodation_guidelines.html), to better understand the process.

[https://www.uvm.edu/academicsuccess/student\\_accessibility\\_services?Page=accommodation\\_guidelines.html](https://www.uvm.edu/academicsuccess/student_accessibility_services?Page=accommodation_guidelines.html)

A student's accommodation letter lists those accommodations that will not be implemented until the student meets with their faculty to create a plan. Contact SAS: A170 Living/Learning Center; 802-656-7753; [access@uvm.edu](mailto:access@uvm.edu); or [www.uvm.edu/access](http://www.uvm.edu/access).

## Required and/or recommended readings

Students are to select and read ONE book of their choosing based on their strand/training attended. Please contact your instructor to determine if your book is acceptable. See list of Recommended Readings at the end of the syllabus.

In addition, students are to read the selected chapters, articles, or literature indicated by their Strand presenter (on their Strand Description Page on BEST website) prior to attending the BEST/VTmtss Summer Institute:

<http://www.uvm.edu/~cdci/best/>.

\*Recommended pre-reading for all attendees: [VTMTSS Field Guide](#)

[https://education.vermont.gov/sites/aoe/files/documents/edu-vtmtss-field-guide-2019\\_0.pdf](https://education.vermont.gov/sites/aoe/files/documents/edu-vtmtss-field-guide-2019_0.pdf)

### Electronic Submissions/Internet Use

Assignments 2 through 5 must be computer generated (please, no handwritten submissions) and emailed to your grading instructor or posted on Blackboard by the date they are due. Submitted files must be either compatible with Microsoft Word or sent in Portable Document Format (PDF). Please retain electronic copies of all of your submitted work for the semester until you receive your final grade. Students will be required to check their UVM e-mail periodically for communications about this course. Instructions on how to use and setup your UVM accounts can be found at: <https://www.uvm.edu/account/>. **It is your responsibility to make sure that you have given the instructor your correct email.**

### Student Evaluation/Assessment:

#### Grading:

Assignments have been numerically weighted and a total score of 100 points is possible. Per UVM graduate policy, any grade below a C- is considered failing. Further, students taking this course as part of the graduate concentration must maintain an average grade of B in all concentration coursework (and no less than a B- in any one class) to remain in the program.

A+	100-97	B+	87-89	C+	77-79	F	below 70
A	94-96	B	84-86	C	74-76		
A-	90-93	B-	80-83	C-	70-73		

## Description of Class Assignments

### Attend The BEST/VTmtss Summer Institute in June:

Attend the morning keynotes, one 4-day strand, two morning workshops, and team time each day. Complete the Attendance Sheet and submit on Thursday, June 25th by 1:15pm.

### Personal Reflection/Proposed Research Topic (due July 6)

Write a brief personal reflection (1-2 double spaced pages) on the Strand/Training you attended. Please include the following: (a) Identify 2-3 major "takeaways" from the Strand/Training, (b) Give the name and rationale for the book you plan to read and how it will build upon the learning in your Strand/Training, and (c) Identify the topic you plan to conduct research on for this course. You will also need to report in your Research Project (see below) how you used your book to inform your Action Plan.

### Critical Book Review (due July 17)

Select one book related to the Strand/Training you attended to read for your critical book review. Write a brief review (1-2 double spaced pages) focusing on (a) why you chose the book based on your professional development goals, (b) strengths and limitations of the book, (c) how specifically the book applies to your research topic and your Action Plan, and (d) whether or not you would recommend this book. You will also need to report in your literature review (see below) how you used your book to inform your Action Plan. Please note: You will be uploading your book reviews to your blog on Blackboard so others in the course may read and respond to your review (see below).

### Peer Response to Book Review (due July 18-26)

Following the submission of your critical book review, you will be asked to read another colleague's book review and write a brief response according to the guidelines distributed to the class via Blackboard. This is a great opportunity to

share your book reviews and learn from others. The list of books reviewed will be compiled and will serve as a class resource.

### Research Project and Action Plan (due July 31)

- Literature Review

Upon completion of the Strand/Training that you attended and once you've identified your research topic, you will complete an independent literature review that will inform your Action Plan. You will conduct a literature review (3-4 double spaced pages and cite at least 4 resources) on your topic that includes the following: (a) What is your topic and rationale for choosing it, (b) Identify common themes, trends, and gaps in research, (c) Evaluate your current thinking on the topic, and (d) Provide insight into the relationship between your research topic and your Action Plan.

- Action Plan

Following your literature review, you will complete an Action Plan to be implemented in your school during the 2020-21 school year. Using the template provided, entitled Action Plan (last 2 pages of syllabus), you will address all components of the Action Plan: (a) Description and rationale, (b) Goals and objectives, (c) Procedure and resources, (d) Timeline and sustainability, (e) Evaluation, and (f) Reflections about what you have learned and obstacles addressed. This Action Plan can be connected to your school team's action plan, but your project must reflect your independent work.

- **IMPORTANT:** As you create your Action Plan, you are required to include at least ONE idea and/or strategy from EACH of the seven learning modules from The National Implementation Research Network.

- The modules explain Implementation Science as a concept that can be used in any field in which the goal is to collaborate with others to create new systems and processes. Each module contains extra resources, example activities, and/or videos that may be useful for your individual school context. <https://nirn.fpg.unc.edu/modules-and-lessons>

### Final Presentation Webinar (August 6 or 7)

Following the submission of your Research Project and Action Plan, you will prepare a 5-minute verbal presentation sharing the following: (a) Research topic and significant findings and (b) a quick synopsis of your Action Plan. This webinar is an opportunity for you to share your research with your colleagues. Links to register for the webinars will be provided at a later date.

**Scoring Rubrics:** The following rubrics show the expectations for each assignment.

<b>(1) Attendance</b>	Max Points	Due: <b>June 22-25</b>  <i>*Submit on the last day of training by 1:15pm</i>
Attend All Training Days	5	
Turn in Attendance Sheet	5	
Total Possible Points	<b>10</b>	

<b>(2) Personal Reflection/Proposed Research Topic</b>	Max Points	Due: <b>July 6</b>  <i>*One point deducted for every day late.</i>
2-3 Major takeaways	5	
Name of book, rationale for choosing this book, and research topic	5	
Total Possible Points	<b>10</b>	

<b>(3) Critical Book Review should include:</b>	Max Points	<p><b>Due: July 17</b></p> <p><i>*One point deducted for every day late.</i></p> <p><i>*Full points will be awarded for each section based on the completeness of thoughts, ideas, and clarity (quality, grammar, spelling, and legibility).</i></p>
Connection of book to your research project	3	
Strengths of book	2	
Limitations of book	2	
How book applies to your research project and action plan	3	
Total Possible Points	<b>10</b>	

<b>(4) Peer Response to Book Review</b>	Max Points	<p><b>Due: July 18-26</b></p>
Participation	5	
Adherence to posted guidelines	5	
Total Possible Points	<b>10</b>	

<b>(5) Research Project and Action Plan</b>	Max Points	<p><b>Due: July 31</b></p> <p><i>*One point deducted for every day late.</i></p> <p><i>*Full points will be awarded for each section based on the completeness of thoughts, ideas, and clarity (quality, grammar, spelling, and legibility).</i></p>
Literature Review should include:		
Describe your topic and rationale for choosing it	4	
Identify common themes, trends, and gaps in research	4	
Evaluate current thinking on the topic	4	
Provide insight into how your literature review will inform your action plan	4	

Action Plan should include:		<p><i>* As you create your Action Plan, you are required to include at least ONE idea and/or strategy from EACH of the seven learning modules from The National Implementation Research Network.</i></p> <p><a href="https://nirn.fpg.unc.edu/modules-and-lessons">https://nirn.fpg.unc.edu/modules-and-lessons</a></p>
Description and rationale	4	
Goals and objectives	4	
Procedure and resources	4	
Timeline and sustainability	4	
Evaluation	4	
Reflection	4	
Total Possible Points	<b>40</b>	

<b>(6) Final Presentation Webinar</b>	Max Points	Due: <b>August 6 or 7</b>
Attendance	10	
Participation	10	
Total Possible Points	<b>20</b>	

Percentage Contribution of Each Assignment

Assignment	Date Due	Percentage of Grade
Attend BEST/VTmtss Summer Institute	June 22-25	10
Personal Reflection/Proposed Research Topic	July 6	10
Critical Book Review	July 17	10
Peer Response to Book Review	July 18-26	10
Research Project and Action Plan	July 31	40
Final Presentation Webinar	August 6 or 7	20

- 13 -  
Instructional Sequence

Dates	Instructional Sequence
June 22 – June 25	Attend BEST/VTmtss Summer Institute
June 26 – August 7	No meetings. Work independently to complete Assignments 2 - 6. Contact instructor with any questions.

**BEST Course: Student Action Plan**

Student Name: \_\_\_\_\_ Project Title: \_\_\_\_\_ Date: \_\_\_\_\_

<u>Description &amp; Rationale</u> What is the project? What is the research or theoretical rationale? Where is your project located? How does project meet the needs of your school?	<u>Goals &amp; Objectives</u> What are the short-, mid-, and long-term goals for this project? What are the specific objectives?	<u>Procedure &amp; Resources</u> What are the steps/activities required to meet your goals/objectives? What resources and people will be necessary to complete (and evaluate) your project?

<u>Timeline &amp; Sustainability</u> What are the expected completion dates for all identified activities? What steps will be taken to ensure the project continues (explain if not applicable)?	<u>Evaluation</u> What are the short-, mid-, and long-term outcomes of this project (should connect to goals)? How will success of project be measured?	<u>Reflections &amp; Comments</u> What are your thoughts, questions, or concerns about this project? What obstacles do you anticipate? What do you hope to learn from this experience?
