

Youth Adult Partnership (YAP): Authentic youth-adult partnerships in learning, teaching, and school leadership are equitable, respectful, trusting cross-generational relationships characterized by shared power, voice, and responsibility.

Restorative Practices (RP): A restorative approach is a set of tools, principles, and practices used in schools and life to create or strengthen the feelings of safety, belonging, voice, and respect. These approaches lay a foundation to build community, explore challenges, and collaboratively respond to harm. A restorative approach succeeds in schools when its implementation reflects the core principles the work is built upon.

Unleashing the Power of Partnership for Learning
